# 16<sup>th</sup> ArabPlast 2023

International Trade Show for Plastics,  
Petrochemicals, Packaging & Rubber Industry

**13-15**  
**DECEMBER 2023**  
DUBAI WORLD TRADE CENTRE  
DUBAI, UAE

Where Plastic  
Meets Business

# ArabPlast

## The No. 1 Premier Event in the Middle East

Spanned over 30 years, ArabPlast is the founder leader successfully connecting the world of **Plastics, Petrochemicals, Packaging & Rubber industries under a single roof.**

The **16th Edition** is scheduled to showcase during **13-15 December 2023** at Dubai International Convention and Exhibition Centre, formally known as the Dubai World Trade Centre.

**A HOME OF UNMATCHED & UNLIMITED OPPORTUNITIES  
FOR NEW BUSINESS & ENHANCEMENT OF ESTABLISHED ONES**

# ArabPlast Offers

An exclusive **B2B** show which brings together professionals & decision-makers from a comprehensive cross-section of the industry.

The Trade Show offers global businessmen & buyers a platform to interact for productive enhancement to **add value & profitability** to the growth of the largest market in the Middle East.

So, if you're a manufacturer or a recycler, ArabPlast is an ideal platform to:

- expand your network within the global industry;
- explore global market trends;
- share professional know-how;
- stay updated on industry innovations;
- conduct new business;
- enhance your existing business.

# Participation Cost

## Space Only (Minimum 36 sqm.) USD 465 per sqm

Please note space only exhibitors should order separate power/ electricity connection for their stand area

## Basic Package (Minimum 12 sqm.) USD 500 per sqm

- Octanorm wall panels
- Carpet inside the stand
- 1 Power socket (Load output 5amp)
- 1 Table
- 2 Chairs
- 3 Spotlights
- 1 Waste basket
- Stand No. & Company Name in English on fascia

## Superior Package (Minimum 12 sqm.) USD 525 per sqm

- Octanorm wall panels
- Carpet inside the stand
- 1 Power socket (Load output 5amp)
- 1 Reception Counter
- Folding door for store room
- 1 Table
- 2 Chairs
- 4 Spotlights
- 1 Waste basket
- 1 Potted Plant
- Stand No. & Company Name in English on fascia
- Wooden pylone with Exhibitors Logo

# Plastic Redefined During Pandemic

The Pandemic made us realize that plastics is versatile, multi-functional & helpful; adverse to what was projected pre-pandemic.

It is the most resilient industry, and its recovery post-Pandemic has been surprisingly fast.

## IT HELPS US

- Save Lives
- Preserve Food
- Food Deliveries
- Prevent the Spread of Virus (Mask & Shields)
- Sanitizers & Gels for Protection

...and more...

It was the only industry during the COVID times to quickly redefine itself to play an important role in the healthcare, and food industry as also in the supply of hygiene items.

# Industry Evolution

In the midst of the huge propaganda to get rid of plastic littering, there are huge and diverse opportunities for this industry to outnumber its adversities.

## Plastic is:

Light  
Durable  
Versatile

Therefore it is crucial  
for strategic sectors.

## Plastic in all Industries

- Building & Construction
- Food & Beverages
- Aviation & Automobile
- Logistics
- Medical & Healthcare Equipments
- Personal Hygiene & Cosmetic Packaging
- Sports
- Renewable Energy

..and more..

The present business module has set focus on circular economy & is making us save resources to remain in the cycle.

The term waste economy affiliated with this industry is becoming past, and circular economy is making us more efficient & increasing profitability.

# PLASTIC RECYCLING – A TINY STEP TOWARDS A BIG CHANGE

The Middle East has set focus to improve sustainability and circularity of plastics!

The Ministry of Industry and Advanced Technology (MoIAT) issued a ministerial decision on regulating the trade of recycled plastic water bottles as a commitment to preserving resources and supporting the shift to a circular economy. The decision allows the use of recycled polyethylene terephthalate (rPET) produced at MoIAT-approved recycling facilities that have obtained a certificate of conformity as per the UAE Regulation for Control on Food Contact Material (Jan2023-Waste and Recycle).

As per the United Arab Emirates Ministry of Environment and Water, **11 billion** plastic bags are used each year thus bringing the annual total waste to **912.5 kg per capita**. There is a conscious effort by the government to encourage companies to make new commitments that will expand the use of recycled and bio-based plastics through better design and new investments in infrastructure. New initiatives and partnerships have set focus on new plastic types like low-carbon plastics made from biomaterials and by 2030, 10 per cent to 14 per cent of total plastic consumption will be recycled annually.

UAE plastic recycling market stood at **0.84 Million Tonnes** in **2020** and is forecast to reach **1.44 Million Tonnes** by **2030**, growing at a **healthy CAGR of 5.34%** until **2030**.

ArabPlast is set to offer the Middle East, innovation and modern technology for partnerships and new business models in plastics recycling.

# A Quick Glance - 2021

Amidst the Corona scare, the 15th Edition of ArabPlast **witnessed huge success** as it concluded on the 18th of November 2021, despite the absence of the bigwigs from Qatar, Iran, and entire region of Southeast Asia, and a minimal attendance from the sub-continent of India & Saudi Arabia.

The floor was buzzing with the **HAPPY FACES** of quality participation and genuine buyers!!

ArabPlast 2021 was the Region's first **INTERNATIONAL LIVE & IN-PERSON EVENT**, post pandemic recovery stage.
